Dirichlet   Dirichlet

1   1m   2

For n = 1 and tau = 0.001;

Eigenfrequency -> 200.047+0.142j

Everything kept same except n and tau;

For left plot, integration from 0 to 1 is **1.** Please ignore the left peaks.

Now, the frequency and growth rate are increased;

Eigenfrequency -> 201.545+1.125j
